REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens :

With teachers' salaries increased to \$750, the Superintendent can look for teachers with more courage than when he must apologize for the small amount of payment he could offer.

Mr. Gulumian continues his effective work at the South Road School. The new teacher at the Heights School is handling her school well.

A new reading system for beginners has been introduced at the Heights. This includes seat work planned to lead the children to independent silent reading while the teacher is occupied with other children. A few new histories have been purchased. The new geographies have now been furnished to all the grades studying that subject. In each school the set of maps is now nearly complete.

I hope to be able to provide new books in English Language soon, and the reading material, of which we have bought little in the last few years, needs replenishing.

At both buildings the rooms have been made more attractive during the past summer.

A most needed improvement is provision for emptying the chemical toilet tanks at South Road into a cess pool instead of pumping out their contents. The inconvenience of the latter method tends toward neglect, and neglect means an unsatisfactory and unsanitary condition. I **know** that chemical toilets can be made most satisfactory when properly installed and properly cared for.

Another change in the organization of the Supervisory Union, with the loss of three towns and the addition of three others has made this year as full of new problems and as difficult for working efficiently as last year.

The budget for the coming year calls for raising a sum a little less than was raised last year.

Respectfully,

GEORGE W. SUMNER.
